

WIRELESS BATTERY OPERATED SMOKE DETECTOR

Your premises deserve the highest safety. The wireless smoke detector is designed to help you protect your space, even when you are away. Powered by photoelectric sensing technology, it detects smoke at an early stage and triggers an alarm. If the smoke concentration level reaches the alarm threshold in the detector smoke chamber, it sets-off an alarm by flashing the LED. These convenient features make the proactive, intelligent device a smart choice for safer spaces. Now keep your premises safe from fire hazards with greater ease
