BATTERY OPERATED SMOKE DETECTOR

LONG BATTERY LIFE | EARLY WARNING | EASY INSTALLATION | RELIABLE PROTECTION

DESCRIPTION

Wireless Standalone detectors combines proven design with performance and has unique features that benefit the installer and end user. Battery Operated Detector works using the light scatter principle and is ideal for applications where slow burning or smouldering fires are likely. The detector continuously monitors the environment for contamination of clean air by smoke particles. This facilitates early warning of incipient fires.

Model No. MS-0019

FEATURES

- Plug and play – Do it yourself. No need for any installation support.
- Cable and wire free – No more headaches of following up electricians or installers.
- Inbuilt alarm buzzer – Notifies the occupant of any fire emergency situation.
- Helps in evacuating the homes or office buildings.
- Use it anywhere: Homes, offices, stores etc.

SPECIFICATION

Power Source	9V Battery
Sound Intensity	80dB
Temperature Range	-0°C to +55°C
Humidity Range (RH)	5% - 90% relative humidity
Sensor	Photoelectric
Size	105mm (Diameter) x 59mm (Height)
Weight	150gm
Interconnects	No
LED	Red & Green

APPLICATION AREAS

Homes | Offices | Stores | Commercial Buildings | Warehouses
